Superintendent Search Process

Chair of the Salary and Negotiations Subcommittee Liza O'Reilly updated the committee reporting that the Salary and Negotiations Subcommittee met with representatives from NESDEC to review the process. She noted that they reviewed the candidate profile and have created an updated draft. Ms. O'Reilly discussed the formation of a screening committee and the process that will be used to identify how they will choose participants.

HPS Vaccination Data Collection

Chair Kerry Ni noted the DESE guidance of schools reaching an 80% vaccination rate in order to consider allowing masks to be optional. Dr. Maestas reported that the district still needs to do the work of collecting student vaccination data. He explained that once the data is collected it has to be validated. Dr. Maestas also stated that the district has purchased software that is able to interface with the state database to collect the information, and explained that it will need to be updated continually, as more students get vaccinated. Tim Dempsey suggested reconvening the group of experts from the medical field sometime in the future to discuss the possibility of removing masks and to answer questions. Nes Correnti stated that she would like to see the mask policy remain until the younger students are eligible for vaccination. Liza O'Reilly stated that she feels the removal of masks may add stress for some students. Michelle Ayer noted that the Student Advisory Committee will be meeting soon and it would be helpful to get students' perspectives. Dr. Maestas reported that he has spoken to several families whose children are concerned that if they remain unvaccinated and have to wear a mask, that they will be singled out among their peers. Dr. Maestas also noted that it will be a difficult task for the schools to enforce who should be wearing a mask.

2021-2022 School Committee Report Schedule

The Committee discussed the proposed schedule and debated which reports may be best to go to subcommittees to create more efficiency. Dr. LaBillois discussed the time frame of some of the reports, noting those that would require the collection of assessment data.
