

## 2022 COVID TESTING PROGRAM STUDENT OPT-IN

January 25, 2022

Dear Parent/Guardian:

Hingham Public Schools is committed to keeping your students safe and in school. We are writing to let you know, in accordance with the Department of Elementary and Secondary Education (DESE) and the Department of Public Health (DPH), our district is updating our COVID-19 Testing Program, effective Monday, January 31, 2022. We are opting into an at-home testing program that will increase testing of our participating students and staff, regardless of vaccination status. For more information about this update to the statewide testing program, please [click here](#). The at-home testing option will begin during the week of February 7, 2022. In addition to this new at-home antigen test option, we will continue with symptomatic testing and routine COVID safety checks during the week. As part of this shift in the program, we are discontinuing Test and Stay and contact tracing for in-school close contacts. This means that if your child is a potential contact in school, they may continue to come to school and do not have to quarantine. This new at-home testing opportunity is voluntary and only those who opt-in will receive tests. We strongly encourage you to fill out the form by Friday, January 28, 2022 to opt-in. If you have questions, please contact your school's principal or nurse.

### **COVID-19 Testing Programs in our Schools:**

1. **At-Home Rapid Antigen Testing** on Thursdays each week
2. **Routine COVID Safety Checks** every week *(If you have not yet signed up, please contact your school for a consent form)*
3. **Symptomatic Testing** *(If you have not yet signed up, please contact your school for a consent form)*

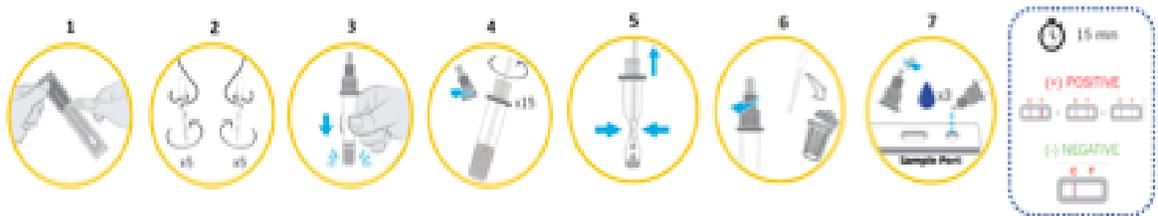

### **Overview: At-Home Rapid Testing Program**

- **About the Test:** [iHealth](#) is a 15-minute at-home FDA-approved rapid antigen test
- **Opt-In:** To participate, you must opt in by completing the [opt-in form](#). By opting in, you will agree to review the training materials for test administration, report positive test results to your student's school, and administer the tests according to Hingham Public Schools' guidelines.
- **Weekly:** Every two weeks you will receive an iHealth at-home rapid test kit. Each kit contains two individual tests. Your student will administer one test each week on Thursdays (this day was selected ahead of possible weekend exposures).

- **Reporting Positive Test Results:** If your student tests positive on an at-home antigen test, you will inform their school of the positive result using the [Positive Test Result Notification Form](#). The school will keep the results confidential and will not make individual results public. **In addition, it is strongly recommended that you inform your healthcare professional of the positive result.**
- **Easy, Free, and Flexible:** This test is administered at home (not at school), reducing the burden on school staff and time to administer tests and increasing a family’s flexibility to do testing in the home for free.

### How do I administer the test?

- [Click here](#) for a **full “how to”** written guide in various languages
- [Click here](#) for a **video** of an individual self-testing

### How do I submit results?

- **Submit Results:** You must submit positive test results to your student’s school. Please complete the [Positive Test Result Notification Form](#) to submit positive test results.
- **Confidentiality:** Positive test results are shared with your school district for informational purposes only. Individual results will remain confidential, and they will never be made public.
