To the Community of Hingham,

This document contains the Strategic Plan for the 2022 to 2025 school years. This document represents a great deal of work from committed stakeholders of the Hingham community. I want to thank the 22 people that comprised the strategic planning development team for their tireless work to help the school department shape its direction for the coming years.

This Strategic Plan represents feedback from the stakeholders of Hingham that came in the form of focus groups, a survey offered to the community, and volumes of data that the strategic planning committee scoured during its development of this plan. One of the goals that the district administration and School Committee established before the process began was to ensure that the school district did not drive the process and the facilitation of the plan. This was done to ensure that the plan was written with a completely objective perspective. This goal was met due to the consultation of the Teaching and Learning Alliance (TLA) and their facilitation of the process. We had a very compressed timeline, and TLA was able to make sense of our challenges and lead our team through an inclusive approach.

Embedded in this plan are new mission and vision statements, along with new core values and a theory of action. The

committee identified five spokes and objectives that overarch 26 strategic initiatives. The Hingham Public Schools have their work cut out for them with this roadmap for the next three years, and they will align this plan with long-term plans for Budget/ Priority Needs, Capital Needs, and Professional Development. We will also embed it within our work to Improve Teaching, Learning, and Safe and Supportive Schools. Ultimately, this work should lead to improved academic and social-emotional learning outcomes for HPS Students, with a lens on equity.

There are significant initiatives embedded in this plan. The Strategic Plan is the map that will serve as a guiding document highlighting priorities and setting the course for district improvement. I want to thank the Hingham Community for trusting me to lead the district through the 2021-2022 school year and the development of the Strategic Plan. I believe if half of the initiatives contained herein get accomplished, Hingham will be the beneficiary of bold district improvement for the children of Hingham.

Sincerely,

Dr. Gary E. Maestas

Summary of the Strategic Planning Process

The strategic plan is a powerful tool that can assist a district in staying focused on what it is, what it wants to be, and how it can achieve its goals. It represents “the set of actions an organization chooses to pursue in order to achieve its objectives. These deliberate actions are puzzle pieces that fit together to create a clear picture of how the people, activities, and resources of an organization can work effectively to accomplish a collective purpose.” (Curtis & City, 2010, p. 20). The strategic planning process affords the opportunity to seek feedback from constituents that comprise the school district: students, parents, staff, administrators, school committee, and the community, in order to best serve the educational community in the future.

In the fall of 2022, members of the Hingham Public Schools and community came together to develop a strategic plan that would serve as a road map for improvement for the 2022 through 2025 school year. The following three-step strategic planning process was employed to help guide the planning process:

Phase 1
Building the Foundation

Phase 2
Building the Plan

Phase 3
Implementing the Plan

Phase One represented an important step in beginning the building of a strong foundation in the strategic planning process. In this phase, relevant data representing the performance of the Hingham Public Schools was collected and community input and feedback was solicited. A series of forums were conducted with families, community, municipal members, school committee, staff and leadership. Ex-post facto data about the Hingham Public Schools was also collected to be used in Phase Two of the process. This data guided the work of the Strategic Planning Committee in Phase Two and Three of the process.

In Phase Two, a Strategic Planning Committee was established to begin the important work of analyzing internal and external data to guide the work in establishing a mission, core values, and a vision. The current strategic plan was also assessed to inform the development of a new plan. During Phase Two work, members of the Strategic Planning Committee analyzed internal and external data collected in order to identify common themes, referred to in the plan as spokes. The Strategic Planning Committee established a strategic objective for each spoke, developed strategic initiatives for each objective, and identified outcomes for each strategic objective. The Strategic Committee also revisited the vision in this phase to ensure it represented the mission of the Hingham Public Schools. A theory of action was also developed.

In the final phase of the strategic planning process, the Strategic Planning Committee discussed how the newly developed contents of the strategic plan could be implemented both vertically and horizontally in the organization to guide the change process over the next three years. Strategies were highlighted that would be employed to ensure that district improvement would focus on the identified compass points. The graphic below highlights the process for using the strategic plan to guide the district in shared vision and vertical alignment of goals.

The Mission Statement

The Mission Statement explains who we are and highlights our fundamental reason for existing. When others read the mission statement they should understand what our core role is as a district. The mission creates fundamental questions for all organizations to ask:

- What is it that we do as a school district?
- Who does the district serve?
- What are the results of what we do?

The Strategic Planning Committee reviewed all collected data from parents, community, and staff and then engaged in a great deal of conversation regarding the aforementioned questions and developed the following mission statement:

Together with students, staff, families and community, we cultivate an *equitable*, inclusive, innovative learning environment that *empowers all* students to contribute to their local and global community.

Core Values

The Hingham Public Schools' Core Values should remain constant in an ever-changing world. These values provide the foundation for our work and influence how we conduct ourselves and engage with others. The following set of core values was established:

**Inclusivity and
Belonging**

**Community
Well-being**

**Lifelong
Learning**

**Student
Centered**

**Civic and Global
Responsibility**

**Personal
Excellence**

**Innovative
Learning**

The Vision Statement

A Vision Statement represents an aspirational description of what an organization would like to achieve or accomplish in the mid-term or long-term future. It is intended to serve as a clear guide for choosing current and future courses of action. It is intended to be our compass – our North Star. The vision statement should be a brief, but concise statement that clearly exemplifies the district's vision for those it serves.

The Strategic Planning Committee developed the following vision statement:

**All students will embark
on a lifelong learning journey
to flourish with empathy
and confidence**

Theory of Action

An organization's theory of action represents a set of actions that will be implemented in order to improve the organization and help it reach its mission. The theory of action is closely related to the strategic objectives and how their implementation will lead to organizational improvement.

Hingham Public Schools' Theory of Action:

Through effective collaboration, two-way communication to ensure an inclusive culture and a sense of belonging, aligned, high-quality PK-12+ curriculum, innovative research-based practices, data-informed instruction, and strong leadership, equitable and inclusive environments, funding to provide effective, safe, and modern facilities, and a system of resources and support to ensure consistency in leadership, and a diverse staff that reflects the student, we will cultivate an equitable, inclusive, innovative learning environment that empowers all students to contribute to their local and global community.

Spokes, Strategic Objectives and Strategic Initiatives | 2022 - 2025

After developing a mission, core values, and a vision, the Strategic Planning Committee began the work of developing the spokes that will serve as the core focus of district improvement for the next three years. Each spoke is highlighted in an action plan that includes a strategic objective, multiple strategic initiatives, outcomes, timeline and responsibility. The following five spokes and strategic objectives emerged from the process:

Spoke #1: Culture of Collaboration and Community

Aligned Curriculum: A process aimed at ensuring coherence and consistency between the intended outcomes as specified in the formal curriculum and teaching methods, assessment tasks, and learning activities in the classroom.

Bullying Prevention Plan: The Massachusetts [anti-bullying law](#) prohibits bullying on school grounds, buses, and activities and requires that schools take steps to report and respond to bullying. Further, under the law, “[e]ach school district...shall develop, adhere to and update a plan to address bullying prevention and intervention in consultation with teachers, school staff, professional support personnel, school volunteers, administrators, community representatives, local law enforcement agencies, students, parents and guardians. The plan shall apply to students and members of a school staff, including, but not limited to, educators, administrators, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to an extracurricular activity and paraprofessionals.”

Common Master Schedule: A schedule of how students matriculate throughout the day that is consistent between each school at a specific level (Elementary, Middle , and High School)

Communication Chain of Command: Chain of command communicates to stakeholders which department/ employee Job type is responsible for what decisions in their sector of the educational institution.

District Technology Plan: A plan developed by the local school district to address the unmet technology needs of the district.

Massachusetts School Building Authority (MSBA): The [MSBA](#) is a quasi-independent government authority that works with local communities to create affordable, sustainable, and energy efficient schools across the state. Foster Elementary was accepted into the MSBA process in 2018 and the Town will vote on whether or not to fund construction of a new building at a special Town Meeting in the Fall of 2022. You can learn more on the [Foster School Building Committee website](#).

Per Pupil Expenditure (PPE): Each year the [Massachusetts Department of Elementary and Secondary Education](#) (DESE) calculates the amount each school district spends educating each pupil by dividing a district's operating costs by its average pupil membership, including in-district and out-of-district spending and enrollment. While there may be some variation in the way each district calculates the financial data sent to DESE, comparison of PPE across districts can provide important relative information about how a district is funding the education of its students.

Portrait of a Graduate: A Portrait of a Graduate is a process used by a school district or school to align school operations and pedagogy around a collective vision for student success. With this vision, your community is taking a strong stance on what it means for your students to be college, career, and life ready. This work is aimed at reinforcing a school district's commitment to supporting the whole child in a way that goes beyond test scores.

Restorative Justice: A school that practices Restorative Justice is one which takes a restorative approach to resolving conflict and preventing harm. Restorative approaches enable those who have been harmed to convey the impact of the harm to those responsible, and for those responsible to acknowledge this impact and take steps to put it right.

School Committee Policies: Under Massachusetts General Law, the School Committee of each district establishes educational goals and policies for the schools in the district, consistent with the requirements of law and the statewide goals and standards established by the Board of Education. The School Committee revised the [HPS Policy Manual](#) in 2021.

School Department Procedures: The Superintendent, who is employed by the School Committee, manages the system and works with the leadership team to develop procedures consistent with state law and School Committee policies. Additionally, building principals are the educational administrators and managers of their schools, and supervise the operation and management of their schools and school property, subject to the supervision and direction of the Superintendent. Each principal works with a school council to define educational goals for the school, identify the educational needs of the students, and formulate a school improvement plan, consistent with state and local educational goals and policies.

Student Subgroups: In education, student subgroup generally refers to any group of students who share similar characteristics, such as gender identification, racial or ethnic identification, socioeconomic status, physical or learning disabilities, language abilities, or school-assigned classifications (e.g., special-education students)

TRACES (Teaching Regionalized Approach to Career Employment Skills): This program is designed for students to spend a portion of the school day at an off-campus site in a supervised work/training experience. During the second half of the school day, the student will fulfill the rest of his or her required credits at Hingham High School. Construction Technology will provide an opportunity to explore a wide range of construction skills in trades such as architectural design, carpentry, electricity, welding, sheet metal fabrication, machine shop, interior design, and decorating. Hands-on experiences will be offered, and students will assist in the renovation of structures and other construction projects.

Two Way Communication: Communication designed to act as a bridge to engagement and, ultimately build strong parent partnerships.

Universal Design for Learning (UDL): UDL is an approach to curriculum design that can help teachers customize curriculum to serve all learners, regardless of ability, disability, age, gender, or cultural and linguistic background. UDL provides a blueprint for designing strategies, materials, assessments, and tools to reach and teach students with diverse needs.
